

AGENDA
SOUTHEAST WATER COALITION
REGULAR MEETING OF THE ADMINISTRATIVE ENTITY

City of Vernon
City Hall – Conference Room 3
4305 S. Santa Fe Avenue
Vernon, CA 90058

THURSDAY, MARCH 21, 2024
12:00 PM

- 1. ROLL CALL**
- 2. PUBLIC COMMENTS**
- 3. CONSENT CALENDAR**
 - a. SEWC ADMINISTRATIVE ENTITY MINUTES OF JANUARY 18, 2024 REGULAR MEETING**
Recommendation: Approve minutes as submitted.
- 4. DISCUSSION/ACTION REGARDING PFAS PERMITTING DRAFT LETTER**
Joanna Moreno, AE Chair, City of Vernon
Recommendation: Review second draft of the letter to present to the Board of Directors at the April 4th meeting.
- 5. PFAS GENERAL ORDER UPDATE**
Joanna Moreno, AE Chair, City of Vernon
Recommendation: Receive and file an update on the PFAS General Order.
- 6. LEGISLATIVE UPDATE**
Joanna Moreno, AE Chair, City of Vernon
Recommendation: Receive and file an update on proposed legislative bills relevant to SEWC.
- 7. MAKING CONSERVATION A CALIFORNIA WAY OF LIFE UPDATE**
Joanna Moreno, AE Chair, City of Vernon
Recommendation: Receive and file an update on the proposed regulation Making Conservation a California Way of Life.
- 8. APRIL 4, 2024 BOARD OF DIRECTORS AGENDA**
Joanna Moreno, AE Chair, City of Vernon
Recommendation: Discuss the SEWC Board of Directors Agenda for April 4, 2024.

9. WRITTEN COMMUNICATIONS

10. ADMINISTRATIVE ENTITY MEMBER COMMENTS

On March 18, 2024, the foregoing agenda was posted in accordance with the applicable legal requirements. Regular and Adjourned Regular meeting agendas may be amended up to 72 hours and Special meeting agendas may be amended up to 24 hours in advance of the meeting.

Disability-related services are available to enable persons with a disability to participate in this meeting, consistent with the Federal Americans with Disabilities Act of 1990. Please contact City of Vernon Public Utilities Department at least 24 hours in advance of the meeting at (323) 583-8811 ext. 888.

The next meeting of the Southeast Water Coalition Administrative Entity will be on Thursday, May 16, 2024, 12:00 p.m., at Vernon City Hall, 4305 South Santa Fe Ave., Vernon, CA 90058.

**Southeast
Water Coalition**

A joint powers authority to protect the Central Groundwater Basin

**MINUTES OF THE SOUTHEAST WATER COALITION
JOINT POWERS AUTHORITY
REGULAR MEETING OF THE ADMINISTRATIVE ENTITY**

**THURSDAY, JANUARY 18, 2024
12:00 NOON**

The Regular Meeting of the Southeast Water Coalition Joint Powers Authority Administrative Entity, held in-person at the Vernon City Hall Council Chamber, was called to order at 12:00 p.m. by AE Chair Joanna Moreno. At the time the meeting was called to order, a quorum of members was present.

Ms. Madeline Anderson took attendance, and the following Administrative Entity members were present:

ITEM 1 - ROLL CALL

Jaime Morales	City of Cerritos
Jose Arroyo-Gutierrez	City of Cerritos
Andrew Caraveo	City of Commerce
Dan Mueller	City of Downey
Derek Nguyen	City of Lakewood
Glen Kau	City of Norwalk
Sarah Ho	City of Paramount
Sarina Morales-Choate	City of Santa Fe Springs
Joanna Moreno, AE Chair	City of Vernon
Ray Cordero	City of Whittier

STAFF AND GUESTS ON SIGN-IN SHEET:

Madeline Anderson	SEWC Staff
Nick Ghirelli	RWG

ITEM 2 – PUBLIC COMMENT

None.

ITEM 3 - CONSENT CALENDAR

Director Cordero moved to approve the consent calendar.

The motion was seconded by Director Kau and was approved by the following voice vote:

AYES: **Arroyo-Gutierrez, Caraveo, Nguyen, Kau, Moreno, Cordero**

NOES: **None.**

ABSTAIN: **Ho, Morales-Choate**

Dan Mueller entered the meeting at 12:02.

ITEM 4 - DISCUSSION/ACTION REGARDING PFAS PERMITTING DRAFT LETTER

Though no representative from Pico Rivera was in attendance, the AE reflected on the challenges that Pico Rivera is facing in obtaining a permit to operate their PFAS treatment facility. The Board had voted to task the AE with drafting a letter addressing this issue. Mr. Nyguen also addressed his challenges with navigating the permitting process efficiently and the frustration of being denied based on opinion, rather than law. The overarching theme emphasized the need to expedite permit approvals, stressing the detrimental impact on cities. There was a collective desire to arrange a meeting with DDW from the Sacramento office. Ms. Anderson volunteered to draft a letter to present at the February 1st Board Meeting, highlighting the significant financial burden that these permit delays have on cities and the frustrations of legal requirements and individual opinions regarding compliance.

Director Mueller moved to approve the following:

- a. Begin drafting a letter to present to the Board of Directors at the February 1st meeting.

The motion was seconded by Director Nguyen and was approved by the following voice vote:

AYES: **Arroyo-Gutierrez, Caraveo, Nguyen, Kau, Moreno, Cordero, Ho, Morales-Choate, Mueller**

NOES: **None.**

ABSTAIN: **None.**

ITEM 5 - GOVERNOR'S BUDGET UPDATE AND 2024 LEGISLATIVE CALENDAR

Ms. Moreno went over the Governor's Budget, summarizing key points including updates on the \$796.8 million in General Fund reductions and \$100 million in delays across various programs. She noted that the state continues adaptive responses to

climate impacts, allocating \$93.9 million for critical flood safety efforts, including support for U.S. Army Corps of Engineers projects, Central Valley flood risk reduction, and storm damage repairs. The proposal also includes reversions and reductions in various programs, such as watershed climate resilience, water recycling, Per- and Polyfluoroalkyl Substances support, dam safety, and relief for small farmers. The budget also mentioned that funding shifts and delays are also proposed for programs like the State Water Efficiency and Enhancement Program, Forecast Informed Reservoir Operations, and on-farm water use and agriculture technical assistance.

Ms. Moreno also highlighted the 2024 Tentative Legislative Calendar. There were no additional comments.

ITEM 6 - EPA LEAD AND COPPER RULE IMPROVEMENTS (LCRI) UPDATE

Ms. Moreno led a discussion on the EPA Lead and Copper Rule Improvements (LCRI) Update, noting that the proposed rules substantially change the previous version.

She noted that key changes in the LCRI include clarifying lead connectors as not being lead service lines, adding lead connectors to the inventory, requiring complete LSL replacement within 10 years (including on customer property), and reducing the lead action level. The proposed rule emphasizes compliance monitoring, public education efforts in case of lead action level exceedances, and updates to lead service line inventory.

Ms. Moreno mentioned that the proposed rule will be open for public comment for 60 days after its publication in the Federal Register.

There were no additional comments.

ITEM 7 - OPERATIONS OF THE WHITTIER NARROWS OPERABLE UNIT BY THE DEPARTMENT OF TOXIC SUBSTANCES CONTROL

Ray Cordero provided an update. The California Department of Toxic Substances Control (DTSC) took over the Whittier Narrows Operable Unit. He provided context about the treatment facility and its original purpose being to remove PCE and TCE from the basin. However, the plant has not been running efficiently and by not pumping at the correct rate, Whittier is the first city to be affected, but not the last. Whittier is willing to draft the letter and present it to the Board, emphasizing the need for the DTSC to meet its obligations and pump efficiently.

There were no additional comments.

ITEM 8 - FEBRUARY 1, 2024 BOARD OF DIRECTORS AGENDA

The following items were discussed as potential agenda items for the Board Meeting on February 1, 2024.

- Presenting two draft letters:
 - o PFAS Permitting
 - o Whittier Narrows Unit
- Reporting on PFAS Funding
- General update on PFAS
- Legislative Update, if applicable.
- Lead and Copper Rule Improvements, if applicable.

ITEM 9 – WRITTEN COMMUNICATIONS

None.

ITEM 10 - ADMINISTRATIVE ENTITY MEMBER COMMENTS

None.

ITEM 11 - ADJOURNMENT

The meeting adjourned at 1:24 p.m.

The next regular Southeast Water Coalition Administrative Entity Meeting will be held on March 21, 2024 at 12:00 p.m. at the Vernon City Hall Council Chamber, 240 W. 4305 S. Santa Fe Avenue, Vernon, CA 90058.

Date

**SOUTHEAST WATER COALITION
JOINT POWERS AUTHORITY
AGENDA REPORT**

Date: March 21, 2024
To: Southeast Water Coalition Board of Directors
From: Joanna Moreno, AE Chair, City of Vernon

**Subject: DISCUSSION/ACTION REGARDING DRAFT LETTER TO THE DDW
CONCERNING PERMIT APPROVALS**

Recommendation: Review second draft of the letter to present to the Board of Directors at the April 4th meeting.

Background:

During the December 7, 2023 Board Meeting, the Board voted to task the AE with drafting a letter addressing the PFAS permitting application issue. The overarching theme emphasized the need to expedite permit approvals, stressing the detrimental impact on cities. There was a collective desire to arrange a meeting with DDW from the Sacramento office. The letter was presented at the February 1, 2024 Board Meeting where there were edits requested, which have since then been addressed and the changes are reflected in the updated draft.

1. Draft letter to the DDW concerning permit approvals.

April 4, 2024

STATE OF CALIFORNIA STATE WATER RESOURCES CONTROL BOARD

DIVISION OF DRINKING WATER

1001 I St, 24th Floor

Sacramento, CA 95814

Dear Mr. Eric Oppenheimer,

Subject: Urgent Request for Meeting to Address Permit Approval Challenges

On behalf of the Southeast Water Coalition ("SEWC"), I write to express our members' concerns about the challenges they face in navigating the permitting process for new groundwater wells and critical treatment facilities for existing wells. SEWC is a Joint Powers Authority created several decades ago to address groundwater contamination issues in the Southeastern portion of Los Angeles County. SEWC member cities are represented on its Policy Board and Administrative Entity by local elected officials and management staff, respectively, from the City of Cerritos, City of Commerce, City of Downey, City of Lakewood, City of Norwalk, City of Paramount, City of Pico Rivera, City of Santa Fe Springs, City of South Gate, City of Vernon, and City of Whittier. The recent discussions among SEWC's Policy Board Members have brought to light the very difficult and frustrating experiences that our member cities consistently face with their operating permit applications - which are denied or conditioned. We are concerned that the requirements imposed on our members are not based on established laws and regulations and cause unnecessary delay and expense.

Our members' treatment facilities are constructed using Best Management Practices and reliable, certified treatment technologies in accordance with applicable law. Our members' permit approvals are often stalled without explanation and fact-based reasons. The delays in permit approvals pose a substantial burden on these cities and lead to frustration over the perceived complexities imposed upon our members by the Division of Drinking Water (DDW) in our disadvantaged communities.

**Southeast
Water Coalition**

A joint powers authority to protect the Central Groundwater Basin

As an example, during our most recent Board meeting, many city representatives shared DDW permitting experiences with the common thread being the continuous and delayed denials and/or unnecessary conditions demanded by DDW without providing defensible reasons or evidence for those requests based on existing regulations. Our member cities are doing everything possible to address the contamination with proven and certified technologies and to seek outside funding for the constituents they serve – only to repeatedly be told more is needed.

Understanding the importance of swift resolution, our Board sees this matter as a critical matter of environmental justice and believes we must act quickly to bring our wells online. Therefore, we request a meeting with you to discuss these challenges and explore possible solutions.

The purpose of this meeting would be to gain insights into the specific and general issues causing delays in permit approvals and to also share our concerns. We aim to collaboratively work towards addressing these challenges and streamlining the permitting process to ensure timely and efficient approvals in the future.

We appreciate your attention to this matter and anticipate your earliest availability for a meeting. Please let us know a convenient time for you, and we will make the necessary arrangements. Your cooperation is invaluable in resolving these issues for the benefit of the communities we serve.

Thank you for your prompt attention to this matter, and we look forward to the opportunity to discuss these concerns with you.

Sincerely,

The Southeast Water Coalition Board of Directors

**SOUTHEAST WATER COALITION
JOINT POWERS AUTHORITY
AGENDA REPORT**

Date: March 21, 2024
To: Southeast Water Coalition Administrative Entity
From: Joanna Moreno, AE Chair, City of Vernon

Subject: PFAS GENERAL ORDER UPDATE

Recommendation: Receive and file an update on the PFAS General Order.

Discussion:

General Order No. DW 2024-0002-DDW is issued by the State Water Resources Control Board, specifically its Division of Drinking Water. The order mandates the monitoring of per and polyfluoroalkyl substances (PFAS) in public water systems.

The order is issued in accordance with Health and Safety Code section 116378, which allows the State Water Board to require PFAS monitoring in public water systems. Funds have been allocated for PFAS testing in community public water systems, with sampling services provided by designated entities at no cost to the water systems.

Various response actions are mandated if PFAS levels exceed designated thresholds. Public water systems are instructed on sampling procedures, analysis methods, and reporting timelines.

The order emphasizes the importance of protecting public health and outlines potential enforcement for non-compliance, such as citations, penalties, and permit suspension or revocation.

Attachments:

1. ORDER DW 2024-0002-DDW: General Order Requiring Monitoring for Per and Polyfluoroalkyl Substances.
2. ORDER DW 2024-0002-DDW Exhibit A
3. ORDER DW 2024-0002-DDW Exhibit B

**STATE OF CALIFORNIA
STATE WATER RESOURCES CONTROL BOARD
DIVISION OF DRINKING WATER**

ORDER DW 2024-0002-DDW

**GENERAL ORDER REQUIRING MONITORING FOR PER AND
POLYFLUOROALKYL SUBSTANCES
*CALIFORNIA HEALTH AND SAFETY CODE SECTION 116378***

The State Water Resources Control Board (“State Water Board” or “Board”), acting by and through its Division of Drinking Water (“Division”), hereby issues General Order No. DW 2024-0002-DDW (hereinafter “Order”) pursuant to section 116378 of the Health and Safety Code, as set forth below:

1. WHEREAS, Assembly Bill 756 (2019-Garcia), approved by the Governor on July 31, 2019, and codified as Health and Safety Code section 116378, authorizes the State Water Board to require public water systems to monitor for per and polyfluoroalkyl substances (“PFAS”), in accordance with conditions set by the Board; and
2. WHEREAS, the Budget Act of 2022 appropriated funds to test for PFAS in community public water systems serving disadvantaged and severely disadvantaged communities, the California State University, Sacramento’s Office of Water Programs (OWP) and Babcock Laboratories, Inc. will collect and analyze samples for PFAS chemicals from drinking water sources under this order at no cost to the water system; and
3. WHEREAS, Health and Safety Code section 116378, subdivision (a) requires a laboratory that has accreditation or certification pursuant to Article 3 (commencing with Section 100825) of Chapter 4 of Part 1 of Division 101 of the Health and Safety Code to perform the analysis of any material required by an order issued pursuant to Health and Safety Code section 116378; and

ORDER DW 2024-0002-DDW

4. WHEREAS, an order issued pursuant to Health and Safety Code section 116378 may apply to an individual public water system, specific groups of water systems, or to all public water systems; and
5. WHEREAS, pursuant to Health and Safety Code section 116378, Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code does not apply to an order issued to groups of public water systems or all public water systems; and
6. WHEREAS, Health and Safety Code section 116378, subdivision (c)(1) states that if monitoring results in a confirmed detection, then a community water system or a nontransient-noncommunity water system must report that detection in the annual consumer confidence report. Section 116378, subdivision (c)(1) further states that unless the water source is taken out of use or new data become available to show that the applicable response level is no longer being exceeded, the community or nontransient-noncommunity water system will provide notice of the exceedance of the response level in the water system's consumer confidence report; and
7. WHEREAS, Health and Safety Code section 116378, subdivision (c)(2) states that in addition to the notice required by subdivision (c)(1), for PFAS with notification levels, a community water system or nontransient-noncommunity water system must report a detection which exceeds the notification level as required by Health and Safety Code section 116455; and
8. WHEREAS, Health and Safety Code section 116378, subdivision (c)(3) states that for PFAS with response levels where a detected level of a PFAS chemical exceeds the response level, a community water system or nontransient-noncommunity public water system must take the water source out of use, provide treatment or blending of the source, or provide public notification as specified therein; and

ORDER DW 2024-0002-DDW

9. WHEREAS, among other things, Health and Safety Code section 116455 requires that within 30 days of a confirmed detection of a contaminant found in drinking water delivered by a public water system for human consumption that is in excess of a notification level set by the State Water Board, the public water system which supplies water directly to the end user must notify the public water system's governing body and the governing body of any local agency whose jurisdiction includes areas supplied with drinking water by the water system. A local agency means a city or county. If the water system is a water company regulated by the California Public Utilities Commission ("Commission"), then the water system must also notify the Commission; and
10. WHEREAS, on August 22, 2019, pursuant to Health and Safety Code section 116455, the State Water Board: (1) updated the notification level for perfluorooctanoic acid ("PFOA") from 0.000014 mg/L to 0.0000051 mg/L; (2) updated the notification level for perfluorooctanesulfonic acid ("PFOS") from 0.000013 mg/L to 0.0000065 mg/L; and
11. WHEREAS, on August 22, 2019, the Division requested the development of Public Health Goals (PHG) from the Office of Environmental Health and Hazard Assessment (OEHHA) for PFOA and PFOS; and
12. WHEREAS, on February 6, 2020, pursuant to Health and Safety Code section 116455, the State Water Board: (1) changed the response levels from a total combined PFOA and PFOS concentration of 0.000070 mg/L to 0.000010 mg/L for PFOA and 0.000040 mg/L for PFOS; and
13. WHEREAS, on March 5, 2021, pursuant to Health and Safety Code section 116455, the State Water Board established a perfluorobutane sulfonic acid (PFBS) notification level of 0.0005 mg/L and response level of 0.005 mg/L; and
14. WHEREAS, on October 31, 2022, pursuant to Health and Safety Code section 116455, the State Water Board established a perfluorohexane sulfonic acid

ORDER DW 2024-0002-DDW

(PFHxS) notification level of 0.000003 mg/L and response level of 0.000020 mg/L; and

15. WHEREAS, by and through this Order, the State Water Board is exercising its authority under Health and Safety Code section 116378 to require those public water systems listed in Exhibit A to this Order to monitor for PFAS in accordance with the conditions set forth below.

THEREFORE, the State Water Board, by and through its Division of Drinking Water, hereby orders the public water systems listed in Exhibit A to this Order, and if not listed, receives at a later date a Notice of Applicability, to monitor for PFAS as follows:

1. On or before April 1st, 2024, register at <https://pfas.owp.csus.edu>. Indicate if requesting free sampling services provided by California State University Sacramento's Office of Water Programs (OWP) and designate your contact for scheduling or if intending to self-sample. Not all self-sampling requests will be granted. If selected to self-sample, free sampling kits will be provided, including shipping to and analysis by DDW's contracted laboratory.
2. If using OWP's free sampling services, OWP will propose a sampling date for each well. Respond within 30 days via email or phone to confirm the sampling date or reach a mutually agreed sampling date for all wells to be sampled under this order.
3. On or before August 31st, 2026, collect a sample, or if using OWP's free sampling services, provide access for sample collection, from the sources listed in Exhibit A to be analyzed for PFAS.
4. If directed by DDW, collect additional samples from the sources listed in Exhibit A to be analyzed for PFAS on or before December 31st, 2026.
5. Samples collected under paragraphs No. 3 and 4 above must be analyzed by DDW's contracted laboratory. All other samples, including confirmation samples, must be analyzed using a laboratory accredited by the California Environmental

ORDER DW 2024-0002-DDW

Laboratory Accreditation Program (ELAP) for analysis of PFAS using EPA Method 533. The laboratory must conduct and report electronically a complete analysis for all PFAS analytes under EPA Method 533.

6. Use OWP's free sampling services for monitoring under paragraphs No. 3 and 4 above unless otherwise directed by DDW.
7. Provide a certified Treatment or Distribution Operator to assist the sampling team with site access and to aid in pump and valve operations if using OWP's free sampling services.
8. Attend training and follow all instructions if selected to self-sample.
9. A PFAS detection is a positive finding of a quantifiable amount above the established detection level requirement for any PFAS analyte tested pursuant to this Order. For the purposes of meeting the requirements in Health and Safety Code section 116378, the established detection level requirement for each PFAS analyte will be identified as the Consumer Confidence Report Detection Level (CCRDL). The detection level requirement for each PFAS constituent for which monitoring is required in this Order is identified by the State Water Board and attached to this Order.
10. If a laboratory reports the detection of PFAS in any sample at a concentration greater than the established Detection Level per analyte in Exhibit B, the CCRDL, the water system will have the option of voluntarily collecting one or two confirmation samples within 30 days of being notified of the initial detected result by the laboratory.
11. If a PFAS detection is followed by a confirmation sample with a result less than the Detection Level, a second confirmation sample may be taken by the water system. Both the first and second voluntary confirmation samples must be collected within 30 days of the notification by the laboratory of the initial detected sample result. An initial detected result will be disregarded if both confirmation

ORDER DW 2024-0002-DDW

samples do not show the detection of the PFAS contaminant. If no confirmation sample – or only one confirmation sample – is collected, the initial detection must be presumed to be confirmed.

12. If the PFAS detection is confirmed, results of the initial and confirmation samples will be averaged to determine if the confirmed detection is greater than the applicable notification level and/or response level. For calculation purposes, a result below the established detection level will be assigned a value of zero when averaging.
13. If the PFAS detection is confirmed, the detection must be reported in the water system's annual consumer confidence report.
14. If the results of a PFAS detection are confirmed to exceed a notification level, the water system must report the detection as required by Health and Safety Code section 116455. Section 116455 notification is required within 30 days after the water system is first informed by the laboratory of a confirmed detection of the contaminant that exceeds the notification level. As required by section 116455, if the public water system is a retail water system, then the person operating the retail water system must notify the retail water system's governing body and the governing body of any local agency whose jurisdiction includes areas supplied with drinking water by the retail water system. If the public water system is a wholesale water system, then the person operating the wholesale water system must notify the wholesale water system's governing body and the water systems that are directly supplied with that drinking water.
15. The specific methodology to determine response level exceedances is dependent on the PFAS analyte and health endpoint. An exceedance may be determined by calculating a quarterly running annual average (QRAA), a single or confirmed sample, or as prescribed in the PFAS analytes Notification Level Issuance by DDW. To determine whether monitoring shows an exceedance of a

response level, refer to the appropriate methodology of the PFAS analyte.

Exhibit B provides a summary of this information but may not be inclusive as new advisory levels are issued.

16. To determine whether monitoring shows an exceedance of a response level for those PFAS analytes that do not use the QRAA method, either a single sample or a confirmed sample is used to determine if the response level is exceeded. Except for PFHxS, if laboratory analysis detects the presence of a constituent in any sample above the response level, the water system will have an option to conduct a confirmation sample within 30 days of being notified of the result by the laboratory. If a confirmation sample is collected and analyzed, all results will be averaged. For PFHxS, if laboratory analysis detects the presence of a constituent in any sample above the response level, the water system will not have an option to conduct a confirmation sample and can request to the laboratory the use of the field duplicate to confirm the results. If the duplicate is analyzed, the result will be averaged.
17. To determine whether monitoring shows an exceedance of a response level for those PFAS analytes using the QRAA method, the water system must calculate a QRAA. The QRAA means the average of sample results taken at an individual source, treatment effluent, or delivered water locations for the identified source during four calendar quarters. The QRAA is re-calculated each quarter using the most recent four quarters of results. A single sample may result in the exceedance of the response level. If any sample would cause the QRAA to exceed a response level, the water source would be deemed to have exceeded the response level. If sampling has just begun and there are less than 4 quarters of results to average, then the other quarters will be considered to have a zero value and the quarterly results would be divided by four. If a system takes more than one sample in a quarter, the average of all the results for that quarter must

ORDER DW 2024-0002-DDW

be used when calculating the running annual average. If a system with at least 4 quarterly results does not have four consecutive quarters of monitoring, the running annual average must be based on the 4 most recent results.

18. If any monitoring is undertaken pursuant to this Order results in a concentration of PFAS in the water entering the distribution system that exceeds a response level, the water system must either (1) take the source out of service immediately; (2) utilize treatment or blending; or (3) provide public notification of the response level exceedance. Additionally, the exceedance of the response level must be reported in the annual consumer confidence report.
19. In addition to the sources listed in this Order, public water systems that provide treatment (for example, blending, granular activated carbon, ion exchange, or reverse osmosis treatment) can also voluntarily sample the treated or delivered water to determine notification requirements. If treated water or delivered water samples are proposed to be voluntarily collected, please contact the local DDW district office for input on sampling location and configuration.
20. Public notification for community or nontransient-noncommunity water systems that are delivering water exceeding a response level must meet the requirements of Health and Safety Code section 116378 and either take the source out of use or complete the public notification requirements.
21. The results of all analyses conducted pursuant to this Order must be reported to the Board by the analyzing laboratory using the EDT (Electronic Data Transfer) process in accordance with Section 64469 of Title 22 of the California Code of Regulations. Analytical results must be reported no later than the 10th day of the month following the month in which laboratory analysis was completed.

The State Water Board reserves the right to make modifications to this Order as it may deem necessary to protect public health and safety.

SEVERABILITY

The requirements of this Order are severable, and each public water system listed in Exhibit A must comply with each and every provision thereof notwithstanding the effectiveness of any provision.

FURTHER ENFORCEMENT ACTION

The California Safe Drinking Water Act authorizes the State Water Board to issue a citation or order with the assessment of administrative penalties to a public water system for violation or continued violation of the requirements of the California Safe Drinking Water Act or any regulation, permit, standard, citation, or order issued or adopted thereunder including. The California Safe Drinking Water Act also authorizes the State Water Board to take action to suspend or revoke a permit that has been issued to a public water system if the public water system has violated applicable law or regulations or has failed to comply with an order of the State Water Board, and to petition the superior court to take various enforcement measures against a public water system that has failed to comply with an order of the State Water Board.

Darrin Polhemus, Deputy Director
State Water Resources Control Board
Division of Drinking Water

NOTES:

1. The CCRDL is based on the US EPA UCMR 5 minimum reporting levels (MRLs) for 25 EPA 533 constituents. Reference: <https://www.epa.gov/system/files/documents/2022-02/ucmr5-factsheet.pdf>
2. The specific methodology to determine response level exceedances is dependent on the PFAS analyte and health endpoint. An exceedance may be determined by a single or confirmed sample, by calculating a quarterly running annual average (QRAA), or as prescribed in the PFAS analytes Notification Level Issuance by DDW
 - a. Single or confirmed sample for PFBS: If laboratory analysis results exceed the response level, the water system will have an option to conduct a confirmation sample within 30 days of being notified of the result by the laboratory. If a

confirmation sample is collected and analyzed, results will be averaged within that quarter to determine if the confirmed detection is greater than the response level.

- b. Single or confirmed sample for PFHxS: If the laboratory analysis result exceeds the response level (RL), the laboratory will notify the PWS within 48 hours of obtaining the result. The water system could request to the laboratory the use of the field duplicate to confirm the results. If the duplicate is analyzed, the result will be averaged. If the average result is higher than the RL, report the result to State Water Resource Control Board (SWRCB) within 48 hours of receiving the results. If the average does not exceed the RL, inform the SWRCB of the results within seven days of the receipt of the confirmation sample analytical result.
 - c. QRAA: Using the QRAA method, the water system must calculate a quarterly running annual average (QRAA). The QRAA means the average of sample results taken at an individual source, treatment effluent, or delivered water locations for the identified source during four calendar quarters. The QRAA is re-calculated each quarter using the most recent four quarters of results. A single sample may result in the exceedance of the response level. If any sample would cause the QRAA to exceed a response level, the water source would be deemed to have exceeded the response level. If sampling has just begun and there are less than 4 quarters of results to average, then the other quarters will be considered to have a zero value and the quarterly results would be divided by four.
3. Shaded cells represent the analytes that DDW is requesting health-based recommendations and advisory levels.

**SOUTHEAST WATER COALITION
JOINT POWERS AUTHORITY
AGENDA REPORT**

Date: March 21, 2024
To: Southeast Water Coalition Administrative Entity
From: Joanna Moreno, AE Chair, City of Vernon

Subject: LEGISLATIVE UPDATE

Recommendation: Receive and file an update on proposed legislative bills relevant to SEWC.

Referred to Committees:

- AB 828 (Bennett D) Sustainable groundwater management: managed wetlands: requires all groundwater basins designated as high- or medium-priority basins by the Department of Water Resources to be managed under a groundwater sustainability plan or coordinated groundwater sustainability plans, except as specified.
- AB 1851 (Holden D) Drinking water: schoolsites: lead testing pilot program. Would require the Superintendent of Public Instruction to contract with a nonprofit technical assistance organization, for purposes of a pilot program applicable to unspecified school districts, to sample all potable water system outlets on the campuses of the school district for lead contamination, except as provided, and to identify and remediate any potable water system outlet emitting water containing lead levels in excess of 5 parts per billion. The bill would require the nonprofit technical assistance organization, if sampling results show lead levels in excess of 5 parts per billion for any potable water system outlet, to take immediate steps to shut down all potable water system outlets where excess lead levels may exist and to work to ensure that a lead-free source of drinking water is provided for pupils at each potable water system outlet that has been shut down.
- AB 2318 (Papan D) State Water Pollution Cleanup and Abatement Account: receipts and expenditures: report. Current law requires each of the 9 California regional water quality control boards to formulate and adopt water quality control plans for all areas within theregion, as provided. Current law requires specified moneys to be paid into the State Water Pollution Cleanup and Abatement Account, which is established in the State Water Quality Control Fund, including, among other moneys, the proceeds of civil penalties for violations of certain waste discharge requirements. Current law continuously appropriates moneys in the account for specified purposes, including, among others, the payment of grant

moneys to eligible entities to assist in cleaning up a waste, abating the effects of a waste on waters of the state, or addressing an urgent drinking water need. This bill would require the State Water Resources Control Board to, no later than January 1 of each year, post on its internet website a report describing the receipts and expenditures of the State Water Pollution Cleanup and Abatement Account, as provided. The bill would require the board to provide the initial report no later than January 1, 2026, and to include data from the years 2017 to 2025, inclusive, in that report.

- SB 903 (Skinner D) Environmental health: product safety: perfluoroalkyl and polyfluoroalkyl substances. Current law, commencing January 1, 2025, prohibits the manufacture, distribution, sale, or offering for sale in the state of any new, not previously used, textile articles that contain regulated perfluoroalkyl and polyfluoroalkyl substances (PFAS). Current law, commencing January 1, 2025, prohibits the manufacture, sale, delivery, holding, or offering for sale in commerce of any cosmetic product that contains intentionally added PFAS. This bill would, beginning January 1, 2030, prohibit a person from distributing, selling, or offering for sale a product that contains intentionally added PFAS, as defined, unless the Department of Toxic Substances Control has made a determination that the use of PFAS in the product is a currently unavoidable use, the prohibition is preempted by federal law, or the product is used. The bill would specify the criteria and procedures for determining whether the use of PFAS in a product is a currently unavoidable use, for renewing that determination, and for revoking that determination. The bill would require the department to maintain on its internet website a list of each determination of currently unavoidable use, when each determination expires, and the products and uses that are exempt from the prohibition. The bill would impose a civil penalty for a violation of the prohibition, as specified. The bill would establish the PFAS Penalty Account and require all civil penalties received to be deposited into that account and, upon appropriation by the Legislature, to be used for the administration and enforcement of these provisions, as specified. This bill would, by January 1, 2027, require the department to adopt regulations to carry out the provisions of this bill.

All CMUA Tracked Water Bills

List current as of Monday, March 11, 2024

BILL NUMBER, TITLE, POSITION	Position	STATUS
AB 305 (Villapudua D) California Flood Protection Bond Act of 2024. Would enact the California Flood Protection Bond Act of 2024 which, if approved by the voters, would authorize the issuance of bonds in the amount of \$4,500,000,000 pursuant to the State General Obligation Bond Law for flood protection projects, as specified. The bill would provide for the submission of these provisions to the voters at the November 5, 2024, statewide general election.		6/14/2023-Referred to Coms. on N.R. & W. and GOV. & F.
AB 460 (Bauer-Kahan D) State Water Resources Control Board: water rights and usage: interim relief: procedures. Current law authorizes the State Water Resources Control Board to investigate all streams, stream systems, lakes, or other bodies of water, take testimony relating to the rights to water or the use of water, and ascertain whether water filed upon or attempted to be appropriated is appropriated under the laws of the state. Current law requires the board to take appropriate actions to prevent waste or the unreasonable use of water. This bill would authorize the board, in conducting specified investigations or proceedings to inspect the property or facilities of a person or entity, as specified. The bill would authorize the board, if consent is denied for an inspection, to obtain an inspection warrant, as specified, or in the event of an emergency affecting public health and safety, to conduct an inspection without consent or a warrant.	Oppose	7/14/2023-Failed Deadline pursuant to Rule 61(a)(10). (Last location was N.R. & W. on 6/7/2023)(May be acted upon Jan 2024)
AB 805 (Arambula D) Sewer service: disadvantaged communities. Under current law, the State Water Resources Control Board and the 9 California regional water quality control boards regulate water quality in accordance with the Porter-Cologne Water Quality Control Act and the federal Clean Water	Work with Author	1/30/2024-Read third time. Urgency clause adopted. Passed. Ordered to the Senate. (Ayes 76. Noes 0.). In Senate. Read first time. To Com. on RLS. for assignment.

BILL NUMBER, TITLE, POSITION	Position	STATUS
Act. Current law authorizes a regional board to order the provision of sewer service by a receiving sewer system, as defined, to a disadvantaged community served by an inadequate onsite sewage treatment system, as defined. This bill would authorize the state board to require a sewer service provider to contract with an administrator designated or approved by the state board for administrative, technical, operational, legal, or managerial services to assist a designated sewer system with the provision of adequate sewer service, as defined. The bill would also authorize the state board to order a designated sewer system to accept those services, including full management and control of all aspects of the designated sewer system, from an administrator. The bill would define “designated sewer system” for these purposes as a sewer system that serves a disadvantaged community and that the state board finds to be either an inadequate sewage treatment system or a sewer system that has demonstrated difficulty in maintaining technical, managerial, and financial capacity to prevent fraud and mismanagement, or a sewer system that voluntarily accepts financial assistance for the provision of adequate sewer service.		
AB 828 (Connolly D) Sustainable groundwater management: managed wetlands. The Sustainable Groundwater Management Act requires all groundwater basins designated as high- or medium-priority basins by the Department of Water Resources to be managed under a groundwater sustainability plan or coordinated groundwater sustainability plans, except as specified. Current law defines various terms for purposes of the act. This bill would add various defined terms for purposes of the act, including the terms “managed wetland” and “small community water system.”	Not Favor	1/29/2024-Read third time. Passed. Ordered to the Senate. (Ayes 47. Noes 15.) In Senate. Read first time. To Com. on RLS. for assignment.
AB 990 (Grayson D) Water quality: waste discharge requirements: infill housing projects. Under current law, the State Water Resources Control Board and the 9 California regional water quality control boards regulate water quality and prescribe waste discharge requirements in accordance with the federal National Pollutant Discharge Elimination System (NPDES) permit program established by the federal Clean Water Act and		1/29/2024-Read third time. Passed. Ordered to the Senate. (Ayes 75. Noes 0.) In Senate. Read first time. To Com. on RLS. for assignment.

BILL NUMBER, TITLE, POSITION	Position	STATUS
the act. This bill would require the regional water board, defined to mean the regional water board with geographic boundaries for the San Francisco Bay region, to, by July 1, 2025, initiate modifications to its waste discharge requirements, as specified. The bill would require these modifications to be completed within 6 months of initiation. Before finalizing the modifications, the bill would require the regional water board to make specified findings, including, among other things, that concerns regarding the potential impacts of the draft NPDES permit requirements on the development of housing on infill sites have been adequately addressed. The bill would make these provisions inoperative on July 1, 2028, and would repeal them on January 1, 2029. AB 1205 (Bauer-Kahan D) Water rights: sale, transfer, or lease: agricultural lands. Current law declares that, because of the conditions prevailing in this state, the general welfare requires that the water resources of the state be put to beneficial use to the fullest extent of which they are capable, that the waste or unreasonable use or unreasonable method of use of water be prevented, and that the conservation of the water is to be exercised with a view to the reasonable and beneficial use of the water in the interest of the people and for the public welfare. This bill would require the State Water Resources Control Board to, on or before January 1, 2027, conduct a study and report to the Legislature and appropriate policy committees on the existence of speculation or profiteering by an investment fund in the sale, transfer, or lease of an interest in any surface water right or groundwater right previously put to beneficial use on agricultural lands, as specified. The bill would repeal this provision on January 1, 2031.		9/14/2023-Failed Deadline pursuant to Rule 61(a)(14). (Last location was INACTIVE FILE on 9/11/2023)(May be acted upon Jan 2024)
AB 1211 (Mathis R) Safe Drinking Water State Revolving Fund: internet website information: updates. The Safe Drinking Water State Revolving Fund Law of 1997, administered by the State Water Resources Control Board, establishes the Safe Drinking Water State Revolving Fund to provide grants or revolving fund loans for the design and construction of projects for public water systems that will enable those systems to meet safe drinking water standards. Current	Watch	7/14/2023-Failed Deadline pursuant to Rule 61(a)(10). (Last location was E.Q. on 5/10/2023) (May be acted upon Jan 2024)

BILL NUMBER, TITLE, POSITION	Position	STATUS
law requires the board, at least once every 2 years, to post information on its internet website regarding implementation of the Safe Drinking Water State Revolving Fund Law and expenditures from the Safe Drinking Water State Revolving Fund, as specified This bill would require the board to post the information at least annually. AB 1272 (Wood D) State Water Resources Control Board: drought planning. Would require the State Water Resources Control Board, in consultation with the Department of Fish and Wildlife, to adopt principles and guidelines for diversion and use of water in coastal watersheds, as specified, during times of water shortage for drought preparedness and climate resiliency. The bill would require that the principles and guidelines allow for the development of locally generated watershed-level plans to support public trust uses, public health and safety, and the human right to water in times of water shortage, among other things. The bill also would require the state board, prior to adopting those principles and guidelines, to allow for public comment and hearing, as provided. The bill would make the implementation of these provisions contingent upon an appropriation of funds by the Legislature for this purpose. AB 1284 (Ramos D) Tribal ancestral lands and waters: cogovernance and comanagement agreements. Current law provides that the Legislature encourages the State of California and its agencies to consult on a government-to-government basis with federally recognized tribes and to consult with nonfederally recognized tribes and tribal organizations, as appropriate, in order to allow tribal officials the opportunity to provide meaningful and timely input in the development of policies, processes, programs, and projects that have tribal implications. Current law provides that the Legislature encourages the state and its agencies to consult with a federally recognized tribe, at the tribe's request for a government-to-government consultation on a specified agency action, within 60 days of the request. This bill would provide that the Legislature encourages the Natural Resources Agency, and its departments, conservancies, and commissions, to enter	Watch	9/14/2023-Withdrawn from Engrossing and Enrolling. BILL NUMBER, TITLE, POSITION	Position	STATUS
into cogovernance and comanagement agreements with federally recognized tribes. The bill would authorize the Secretary of the Natural Resources Agency or a delegate to enter into agreements with federally recognized tribes for the purposes of shared responsibility, decisionmaking, and partnership in resource management and conservation within a tribe’s ancestral lands and waters, and would require the secretary or a delegate to be the signatory for the state for these agreements. The bill would authorize the secretary or a delegate, within 90 days of a federally recognized tribe’s request, to begin government-to-government negotiations on cogovernance and comanagement agreements with the tribe.		
AB 1337 (Wicks D) State Water Resources Control Board: water diversion curtailment. Under existing law, the diversion or use of water other than as authorized by specified provisions of law is a trespass, subject to specified civil liability. This bill would expand the instances when the diversion or use of water is considered a trespass. This bill contains other related provisions and other existing laws.	Oppose	7/14/2023-Failed Deadline pursuant to Rule 61(a)(10). (Last location was N.R. & W. on 6/7/2023)(May be acted upon Jan 2024)
AB 1563 (Bennett D) Groundwater sustainability agency: groundwater extraction permit: verification. Current law authorizes any local agency or combination of local agencies overlying a groundwater basin to decide to become a groundwater sustainability agency for that basin and imposes specified duties upon that agency or combination of agencies, as provided. Current law authorizes a groundwater sustainability agency to request of the county, and requires a county to consider, that the county forward permit requests for the construction of new groundwater wells, the enlarging of existing groundwater wells, and the reactivation of abandoned groundwater wells to the agency before permit approval. This bill would instead require a county to forward permit requests for the construction of new groundwater wells, the enlarging of existing groundwater wells, and the reactivation of abandoned groundwater wells to the groundwater sustainability agency before permit approval.	Watch	7/14/2023-Failed Deadline pursuant to Rule 61(a)(10). (Last location was GOV. & F. on 6/22/2023)(May be acted upon Jan 2024)

BILL NUMBER, TITLE, POSITION	Position	STATUS
AB 1573 (Friedman D) Water conservation: landscape design: model ordinance. The Water Conservation in Landscaping Act provides for a Model Water Efficient Landscape Ordinance that is adopted and updated at least every 3 years by the Department of Water Resources, unless the department makes a specified finding. Current law requires a local agency to adopt the model ordinance or to adopt a water efficient landscape ordinance that is at least as effective in conserving water as the updated model ordinance, except as specified. Current law specifies the provisions of the updated model ordinance, as provided. Current law includes a related statement of legislative findings and declarations. This bill would require the updated model ordinance to include provisions that require that plants included in a landscape design plan be selected based on their adaptability to climatic, geological, and topographical conditions of the project site, as specified. The bill would also exempt landscaping that is part of a culturally specific project, as defined, ecological restoration projects that do not require a permanent irrigation system, mined-land reclamation projects that do not require a permanent irrigation system, and existing plant collections, as part of botanical gardens and arboretums open to the public, from the model ordinance. The bill would require the updated model ordinance to include provisions that, among other changes, prohibit the use of traditional overhead sprinklers on all new and rehabilitated landscapes and require that new and rehabilitated landscapes use only water efficient irrigation devices.	Neutral	9/14/2023-Failed Deadline pursuant to Rule 61(a)(14). (Last location was INACTIVE FILE on 9/7/2023)(May be acted upon Jan 2024)
AB 1827 (Papan D) Local government: fees and charges: water: higher-consumptive water parcels. The California Constitution specifies various requirements with respect to the levying of assessments and property-related fees and charges by a local agency, including requiring that the local agency provide public notice and a majority protest procedure in the case of assessments and submit property-related fees and charges for approval by property owners subject to the fee or charge or the electorate residing in the affected area following a public hearing. This bill would provide	Support	1/29/2024-Referred to Com. on L. GOV.

BILL NUMBER, TITLE, POSITION	Position	STATUS
that the fees or charges for property-related water service imposed or increased, as specified, may include the incrementally higher costs of water service due to specified factors, including the higher water usage demand of parcels. The bill would provide that the costs associated with higher water usage demands, the maximum potential water use, or a projected peak water usage demand may be allocated using any method that reasonably assesses the water service provider's cost of serving those parcels that are increasing potential water usage demand, maximum potential water use, or project peak water use demand.		
AB 1851 (Holden D) Drinking water: schoolsites: lead testing pilot program. Would require the Superintendent of Public Instruction to contract with a nonprofit technical assistance organization, for purposes of a pilot program applicable to unspecified school districts, to sample all potable water system outlets on the campuses of the school district for lead contamination, except as provided, and to identify and remediate any potable water system outlet emitting water containing lead levels in excess of 5 parts per billion. The bill would require the nonprofit technical assistance organization, if sampling results show lead levels in excess of 5 parts per billion for any potable water system outlet, to take immediate steps to shut down all potable water system outlets where excess lead levels may exist and to work to ensure that a lead-free source of drinking water is provided for pupils at each potable water system outlet that has been shut down.	Watch	1/29/2024-Referred to Coms. on E.S. & T.M. and ED. "> 3/19/2024 1:30 p.m. - State Capitol, Room 444 ASSEMBLY ENVIRONMENTAL SAFETY AND TOXIC MATERIALS, GARCIA, EDUARDO, Chair
AB 2000 (Mathis R) State Water Project: permit and license conditions. Under current law, the State Water Resources Control Board administers a water rights program pursuant to which the State Water Resources Control Board grants permits and licenses to appropriate water. Current law requires the director of the department, in collaboration with the Secretary of the Interior, to prepare a plan, on or before January 1, 2006, to meet the existing permit and license conditions for which the department has an obligation, and to submit copies of the plan to the state board and the California Bay-Delta Authority prior to increasing the existing		1/31/2024-From printer. May be heard in committee March 1.

BILL NUMBER, TITLE, POSITION	Position	STATUS
permitted diversion rate at the State Water Project's Harvey O. Banks Pumping Plant. This bill would make a nonsubstantive change to the latter provision. AB 2060 (Soria D) Lake and streambed alteration agreements: exemptions. Current law prohibits a person, a state or local governmental agency, or a public utility from substantially diverting or obstructing the natural flow of, or substantially changing or using any material from the bed, channel, or bank of, any river, stream, or lake, or depositing or disposing of debris, waste, or other material containing crumbled, flaked, or ground pavement where it may pass into any river, stream, or lake, unless prescribed requirements are met, including written notification to the Department of Fish and Wildlife regarding the activity. Current law prescribes various requirements for lake and streambed alteration agreements. Current law also establishes various exemptions from these provisions, including, until January 1, 2029, the diversion of floodflows for groundwater recharge, as provided. This bill would indefinitely exempt from these provisions the temporary operation of existing infrastructure or temporary pumps being used to divert flood stage flows, as identified by the California Nevada River Forecast Center or the State Water Resources Control Board, or near-flood stage flows, as defined, to groundwater recharge as long as certain conditions are met. AB 2079 (Bennett D) Sustainable Groundwater Management Act: groundwater basins. The Sustainable Groundwater Management Act authorizes the State Water Resources Control Board to designate a groundwater basin as a probationary basin if the state board makes a certain determination and to develop an interim plan for the probationary basin. The act requires that a local agency or groundwater sustainability agency have 180 days to remedy the deficiency if the board designates the basin as a probationary basin. This bill would make nonsubstantive changes to the latter provision. AB 2171 (Bennett D) Water: Department of Water Resources. Current law establishes in the Natural Resources Agency the Department of Water Resources,		2/12/2024-Referred to Com. on W., P., & W. 2/6/2024-From printer. BILL NUMBER, TITLE, POSITION	Position	STATUS
which is under the control of the Director of Water Resources. Current law provides for the appointment of the director by the Governor, subject to confirmation by the Senate. This bill would make nonsubstantive changes to that provision. AB 2172 (Wallis R) Irrigation districts: water distribution. The Irrigation District Law requires all water distributed by districts for irrigation purposes, except as provided, to be apportioned ratably to each landowner upon the basis of a specified ratio. The law also authorizes the landowner to assign for use within the district the right to the whole or any portion of the water apportioned to that landowner. This bill would make nonsubstantive changes to that authorization. AB 2257 (Wilson D) Local government: property-related water and sewer fees and assessments: remedies. The California Constitution specifies various requirements with respect to the levying of assessments and property-related fees and charges by a local agency. The California Constitution includes a public notice and a majority protest procedure in the case of assessments and procedures for submitting property-related fees and charges for approval by property owners subject to the fee or charge or to the electorate residing in the affected area following a public hearing. Current law, known as the Proposition 218 Omnibus Implementation Act, prescribes specific procedures and parameters for local jurisdictions to comply with these requirements. This bill would prohibit, if a local agency complies with specified procedures, a person or entity from bringing a judicial action or proceeding alleging noncompliance with the constitutional provisions for any new, increased, or extended fee or assessment, as defined, unless that person or entity has timely submitted to the local agency a written objection to that fee or assessment that specifies the grounds for alleging noncompliance, as specified. AB 2318 (Papan D) State Water Pollution Cleanup and Abatement Account: receipts and expenditures: report. Current law requires each of the 9 California regional water quality control boards to formulate and adopt water quality control plans for all areas within the		2/8/2024-From printer. BILL NUMBER, TITLE, POSITION	Position	STATUS
region, as provided. Current law requires specified moneys to be paid into the State Water Pollution Cleanup and Abatement Account, which is established in the State Water Quality Control Fund, including, among other moneys, the proceeds of civil penalties for violations of certain waste discharge requirements. Current law continuously appropriates moneys in the account for specified purposes, including, among others, the payment of grant moneys to eligible entities to assist in cleaning up a waste, abating the effects of a waste on waters of the state, or addressing an urgent drinking water need. This bill would require the State Water Resources Control Board to, no later than January 1 of each year, post on its internet website a report describing the receipts and expenditures of the State Water Pollution Cleanup and Abatement Account, as provided. The bill would require the board to provide the initial report no later than January 1, 2026, and to include data from the years 2017 to 2025, inclusive, in that report. AB 2517 (Fong, Vince R) Water: water districts: irrigation districts: debris removal. Would state the intent of the Legislature to enact subsequent legislation to streamline the process for water districts and irrigation districts to remove debris in waterways. AB 2614 (Ramos D) Water. Current law declares that, because of the conditions prevailing in this state, the general welfare requires that the water resources of the state be put to beneficial use to the fullest extent of which they are capable, that the waste or unreasonable use or unreasonable method of use of water be prevented, and that the conservation of the water is to be exercised with a view to the reasonable and beneficial use of the water in the interest of the people and for the public welfare. This bill would make nonsubstantive changes to that declaration. AB 2661 (Soria D) Water: storage capacity. Current law requires the Department of Water Resources to operate the State Water Resources Development System, known as the State Water Project, to supply water to persons and entities in the state. This bill would state the intent of the Legislature to enact subsequent legislation to increase statewide water storage capacity. BILL NUMBER, TITLE, POSITION	Position	STATUS
AB 2799 (Fong, Vince R) Sustainable groundwater management: state agencies. The Sustainable Groundwater Management Act requires all groundwater basins designated as high- or medium-priority basins by the Department of Water Resources to be managed under a groundwater sustainability plan or coordinated groundwater plans, except as specified. Current law requires all relevant state agencies, as described, to consider the policies of the act, and any groundwater sustainability plans adopted pursuant to the act, when revising or adopting policies, regulations, or criteria, or when issuing orders or determinations, where pertinent. This bill would make a nonsubstantive change to the latter requirement.		2/16/2024-From printer. May be heard in committee March 17.
AB 2894 (Gallagher R) Urban water use targets: indoor residential water use. Existing law requires the state to achieve a 20% reduction in urban per capita water use in California. Existing law requires each urban retail water supplier to develop urban water use targets and an interim urban water use target, as specified, and states the intent of the Legislature that the urban water use targets cumulatively result in a 20% reduction from the baseline daily per capita water use. Existing law requires the Department of Water Resources to develop technical methodologies and criteria, as provided, for purposes of these provisions. This bill would make a nonsubstantive change to the provision requiring the department to develop technical methodologies and criteria.		2/16/2024-From printer. May be heard in committee March 17.
AB 2962 (Papan D) Water appropriations: permits. Current law authorizes the State Water Resources Control Board to administer a water rights program pursuant to which the board grants permits and licenses to appropriate water. Current law requires the board to consider and act upon all applications for permits to appropriate water. This bill would make a nonsubstantive change to the latter provision.		2/17/2024-From printer. May be heard in committee March 18.
AB 3012 (Grayson D) Cities: legislative body: water. Current law relating to the government of cities authorizes the legislative body of a city to engage in specified acts relating to municipal water supply and		2/17/2024-From printer. May be heard in committee March 18.

BILL NUMBER, TITLE, POSITION	Position	STATUS
infrastructure. This bill would make nonsubstantive changes to this provision. AB 3044 (Alanis R) Water: distribution for irrigation. The California Water District Law requires all water distributed for irrigation purposes, except as otherwise provided, to be apportioned ratably to each holder of title to land upon the basis of the ratio that the last assessment against that land for district purposes bears to the whole sum assessed in the district for district purposes. This bill would make nonsubstantive changes to that law. AB 3073 (Haney D) Wastewater testing: illicit substances. Would require the State Water Resources Control Board to create a program to test for illicit substances, including, but not limited to, cocaine, fentanyl, methamphetamine, and morphine, in wastewater, as provided. The bill would require local sanitation agencies to collect wastewater sample for testing by the state board. By imposing additional duties on local agencies, this bill would impose a state-mandated local program. The bill would require the state board to transmit the results of its wastewater testing to the State Department of Public Health for the department to post on its internet website. AB 3084 (Soria D) Groundwater basin management. The Sustainable Groundwater Management Act states the intent of the Legislature to provide for the sustainable management of groundwater basins and to provide local groundwater agencies with the authority and the technical and financial assistance necessary to sustainably manage groundwater, among other purposes of the act. This bill would express the intent of the Legislature to enact future legislation to improve groundwater basin management. AB 3121 (Hart D) Urban retail water suppliers: written notice: conservation order: dates. Current law authorizes the State Water Resources Control Board, on and after January 1, 2025, to issue a written notice to an urban retail water supplier that does not meet its urban water use objective. Current law authorizes the board, on and after January 1, 2026, to issue a		2/17/2024-From printer. May be heard in committee March 18. 2/17/2024-From printer. BILL NUMBER, TITLE, POSITION	Position	STATUS
conservation order to an urban retail water supplier that does not meet its urban water use objective. This bill would instead provide that the date the board is authorized to issue a written notice to January 1, 2026 and a conservation order to January 1, 2027. AB 3157 (Papan D) California Water District Law. The California Water District Law (CWDL) authorizes a water district, by using any water or water supplies furnished to the district or used by the district, to construct, maintain, and operate plants for the generation of hydroelectric power from those water and transmission lines for the conveyance of that power. The CWDL authorizes a water district to join with any other district engaged in distributing water in exercising the powers granted to the district pursuant to that authorization, as described, or to execute joint power agreements with any agency formed for that purpose. This bill would make a nonsubstantive change to the latter authorization. AB 3187 (Carrillo, Juan D) Safe Drinking Water Plan. The California Safe Drinking Water Act requires the State Water Resources Control Board to maintain a drinking water program and carry out various duties, responsibilities, and functions relating to drinking water, including submission to the Legislature, every 5 years, of a comprehensive Safe Drinking Water Plan for California. This bill would make nonsubstantive changes to the provision requiring submission of a Safe Drinking Water Plan. ACA 2 (Alanis R) Water Resiliency Act of 2024. The California Constitution declares that the general welfare requires that the water resources of the state be put to beneficial use to the fullest extent of which they are capable, and that the right to the use of water does not extend to the waste or unreasonable use, method of use, or method of diversion of water. This measure would require the Treasurer to annually transfer an amount equal to 1.5% of all state revenues from the General Fund to the California Water Resiliency Trust Fund, which the measure would create. The measure would continuously appropriate moneys in the fund to the California Water Commission for its actual costs of	Watch	2/17/2024-From printer. implementing these provisions and for specified water infrastructure projects.		
ACA 16 (Bryan D) Environmental rights. The California Constitution declares various inalienable rights of the people, including the right to enjoy and defend life and liberty, acquire, possess, and protect property, and pursue and obtain safety, happiness, and privacy. This measure would amend the California Constitution to declare that the people have a right to clean air and water and a healthy environment.	Watch	1/26/2024-From printer. May be heard in committee February 25.
SB 57 (Gonzalez D) Utilities: disconnection of residential service. Would require an electrical corporation, local publicly owned electric utility, gas corporation, local publicly owned gas utility, water corporation, or local agency that owns a public water system to postpone the disconnection of a customer's residential service for nonpayment of a delinquent account when the temperature will be 32 degrees Fahrenheit or cooler, or 95 degrees Fahrenheit or warmer, within the utility's service area during the 24 hours after that service disconnection would occur, as specified. The bill would require each of those utilities to notify its residential ratepayers of that requirement and to create an online reporting system available through its internet website, if it has one, that enables its residential ratepayers to report when their utility service has been disconnected in violation of that requirement, as specified. The bill would require the PUC to establish a citation program to impose a penalty on an electrical corporation or gas corporation that violates that requirement, and require each local publicly owned electric utility and local publicly owned gas utility to annually report to the State Energy Resources Conservation and Development Commission the number of residential service connections it disconnected for nonpayment of a delinquent account. The bill would authorize the State Water Resources Control Board to enforce the requirement that a water corporation and local agency that owns a public water system postpone a disconnection of a customer's residential service, as specified.	Oppose/Amend SEUC OUA 4.10.23	2/1/2024-Returned to Secretary of Senate pursuant to Joint Rule 56.

BILL NUMBER, TITLE, POSITION	Position	STATUS
SB 366 (Caballero D) The California Water Plan: long-term supply targets. Current law requires the Department of Water Resources to update every 5 years the plan for the orderly and coordinated control, protection, conservation, development, and use of the water resources of the state, which is known as “The California Water Plan.” Current law requires the department to include a discussion of various strategies in the plan update, including, but not limited to, strategies relating to the development of new water storage facilities, water conservation, water recycling, desalination, conjunctive use, water transfers, and alternative pricing policies that may be pursued in order to meet the future needs of the state. Current law requires the department to establish an advisory committee to assist the department in updating the plan. This bill would revise and recast certain provisions regarding The California Water Plan to, among other things, require the department to instead establish a stakeholder advisory committee and to expand the membership of the committee to include tribes, labor, and environmental justice interests. The bill would require the department to coordinate with the California Water Commission, the State Water Resources Control Board, other state and federal agencies as appropriate, and the stakeholder advisory committee to develop a comprehensive plan for addressing the state’s water needs and meeting specified long-term water supply targets established by the bill for purposes of The California Water Plan. The bill would require the plan to provide recommendations and strategies to ensure enough water supply for all beneficial uses.	Sponsor	7/14/2023-Failed Deadline pursuant to Rule 61(a)(10). BILL NUMBER, TITLE, POSITION	Position	STATUS
adopt a rule of court to establish procedures requiring actions or proceedings brought to attack, review, set aside, void, or annul the certification of an environmental impact report, or the granting of any project approvals, for groundwater recharge projects, as described, except as provided, that implement a groundwater sustainability plan or an interim groundwater sustainability plan, as described, that would require the actions or proceedings, including any appeals, to be resolved within 270 days of the filing of the certified record of proceedings with the court. The bill would also include a related statement of legislative intent. SB 903 (Skinner D) Environmental health: product safety: perfluoroalkyl and polyfluoroalkyl substances. Current law, commencing January 1, 2025, prohibits the manufacture, distribution, sale, or offering for sale in the state of any new, not previously used, textile articles that contain regulated perfluoroalkyl and polyfluoroalkyl substances (PFAS). Current law, commencing January 1, 2025, prohibits the manufacture, sale, delivery, holding, or offering for sale in commerce of any cosmetic product that contains intentionally added PFAS. This bill would, beginning January 1, 2030, prohibit a person from distributing, selling, or offering for sale a product that contains intentionally added PFAS, as defined, unless the Department of Toxic Substances Control has made a determination that the use of PFAS in the product is a currently unavoidable use, the prohibition is preempted by federal law, or the product is used. The bill would specify the criteria and procedures for determining whether the use of PFAS in a product is a currently unavoidable use, for renewing that determination, and for revoking that determination. The bill would require the department to maintain on its internet website a list of each determination of currently unavoidable use, when each determination expires, and the products and uses that are exempt from the prohibition. The bill would impose a civil penalty for a violation of the prohibition, as specified. The bill would establish the PFAS Penalty Account and require all civil penalties received to be deposited into that account and, upon appropriation by the Legislature, to be used for the		6/20/2023)(May be acted upon Jan 2024) 3/8/2024-Set for hearing April 3. BILL NUMBER, TITLE, POSITION	Position	STATUS
administration and enforcement of these provisions, as specified. This bill would, by January 1, 2027, require the department to adopt regulations to carry out the provisions of this bill.		
SB 1072 (Padilla D) Local government: Proposition 218: remedies. The California Constitution sets forth various requirements for the imposition of local taxes. The California Constitution excludes from classification as a tax assessments and property-related fees imposed in accordance with provisions of the California Constitution that establish requirements for those assessments and property-related fees. Under these requirements, an assessment is prohibited from being imposed on any parcel if it exceeds the reasonable cost of the proportional special benefit conferred on that parcel, and a fee or charge imposed on any parcel or person as an incident of property ownership is prohibited from exceeding the proportional cost of the service attributable to the parcel. This bill would require, if a property-related fee or charge creates revenues in excess of the local government's reasonable cost of providing the specific benefit or specific government service, that the excess revenues be used only to reduce the subsequently adopted and following property-related fee or charge. The bill would declare that this provision is declaratory of existing law.		2/21/2024-Referred to Com. on L. GOV.
SB 1110 (Ashby D) Urban retail water suppliers: informational order: conservation order. Current law authorizes the State Water Resources Control Board, on and after January 1, 2024, to issue informational orders pertaining to water production, water use, and water conservation to an urban retail water supplier that does not meet its urban water use objective. Current law requires the board to consider certain information in determining whether to issue an informational order. This bill would require the board to additionally consider lower cost actions the water supplier has implemented or will implement in order to help the water supplier achieve overall water supply resiliency in determining whether to issue an informational order.		2/21/2024-Referred to Com. on N.R. & W.
SB 1121 (Grove R) Recycled water: onsite treated nonpotable water systems: local jurisdiction		2/21/2024-Referred to Com. on E.Q.

permitting. Current law requires the State Water Resources Control Board, in consultation with the California Building Standards Commission and the Department of Housing and Community Development, to adopt regulations for risk-based water quality standards for the onsite treatment and reuse of nonpotable water, and requires a local jurisdiction that elects to establish a program for onsite treated nonpotable water systems to establish design criteria, permitting, cross-connection control, and enforcement procedures, as provided. This bill would require those local jurisdictions to ensure their permitting procedures require the approval of a permit for an onsite treated nonpotable water system within 60 days from the date the permit application is submitted if the application demonstrates that the project meets or exceeds the state board's water quality standards for the onsite treatment and reuse of nonpotable water for nonpotable uses in multifamily residential, commercial, and mixed-use buildings.

SB 1139 (Ashby D) Flood protection: City of Sacramento: Sacramento Area Flood Control Agency.

Unless a city or county within the Sacramento-San Joaquin Valley makes certain findings after the effective date of specified amendments to its general plan, the Planning and Zoning Law prohibits a city or county from entering into a development agreement for property located in a flood hazard zone; approving a discretionary permit, ministerial permit, or other discretionary entitlement for a project that is located within a flood hazard zone, as specified; or approving a tentative map, or a parcel map for which a tentative map was not required, for a subdivision that is located within a flood hazard zone. Those findings include, among others, that the local flood management agency has made adequate progress on the construction of a flood protection system that will result in flood protection equal to or greater than the urban level of flood protection in urban or urbanizing areas. Current law further requires urban and urbanizing areas protected by any levee that is part of the facilities of the State Plan of Flood Control to achieve the urban level of flood protection by 2025. Existing law extends that deadline to 2030 for the City of West Sacramento.

This bill would extend that deadline for achieving the urban level of flood protection for the City of Sacramento to 2030.

SB 1147 (Portantino D) Drinking water: bottled water: microplastics levels. Would require, among other things, the Office of Environmental Health Hazard Assessment (OEHHA) to study the health impacts of microplastics in drinking water, including bottled water, in order to evaluate and identify safe and unsafe levels of microplastics in those types of water, and, on or before January 1, 2026, to develop and deliver to the State Water Resources Control Board, among other things, public health standards and goals for a safe level of microplastics in those waters. The bill would require the state board, on or before January 1, 2028, to adopt and implement those public health standards and goals developed and delivered by OEHHA, and to provide those public health standards and goals to local water agencies, along with other specified information provided by OEHHA. The bill would also require the state board to establish testing and reporting requirements for an annual testing of microplastics in bottled water sold in or into this state, as specified.

2/21/2024-Referred to Com. on E.Q.

SB 1156 (Hurtado D) Groundwater sustainability agencies: financial disclosures. The Sustainable Groundwater Management Act requires all groundwater basins designated as high- or medium-priority basins by the Department of Water Resources to be managed under a groundwater sustainability plan or coordinated groundwater sustainability plans, except as specified. Existing law requires a groundwater sustainability plan to be developed and implemented for each medium- or high-priority basin by a groundwater sustainability agency. Current law authorizes any local agency or combination of local agencies overlying a groundwater basin to decide to become a groundwater sustainability agency for that basin, as provided. Current provisions of the Political Reform Act of 1974 prohibit a public official from making, participating in making, or attempting to use their official position to influence a governmental decision in which they know or have reason to know that they have a financial interest, as defined. However, current

BILL NUMBER, TITLE, POSITION	Position	STATUS
law permits a public official to make or participate in the making of a governmental decision, even if the public official knows or has reason to know that the official has a financial interest, if the official's participation is legally required for the action or decision to be made. Current law makes a knowing or willful violation of the act a misdemeanor and subjects offenders to criminal penalties. This bill would require members of the executive team, board of directors, and other groundwater management decision makers of groundwater sustainability agencies to annually disclose any economic or financial interests pursuant to the Political Reform Act of 1974 that may reasonably be considered to affect their decision-making related to groundwater management, as provided.		
SB 1185 (Niello R) Water use efficiency standards. Current law establishes a method to estimate the aggregate amount of water that would have been delivered the previous year by an urban retail water supplier if all that water had been used efficiently, based on water use efficiency standards, as specified. This bill would express the intent of the Legislature to enact future legislation relating to water use efficiency standards.		2/21/2024-Referred to Com. on RLS.
SB 1188 (Laird D) Repair and maintenance projects: avoiding threats to public health and safety and the environment. Current law finds and declares, among other things, that the failure to properly repair and maintain commercial and industrial facilities or structures may pose a threat to public health or safety or to the environment that could be prevented through expeditious and coordinated agency action. This bill would make nonsubstantive changes to those findings and declarations.		2/21/2024-Referred to Com. on RLS.
SB 1218 (Newman D) Water: emergency water supplies. Would declare that it is the established policy of the state to encourage and incentivize, but not mandate, the development of emergency water supplies, and to support their use during times of water shortage.		2/29/2024-Referred to Com. on N.R. & W.
SB 1255 (Durazo D) Public water systems: needs analysis. The California Safe Drinking Water Act provides for the operation of public water systems and		2/29/2024-Referred to Com. on E.Q.

imposes on the State Water Resources Control Board various responsibilities and duties relating to the regulation of drinking water to protect public health. Current law establishes the Safe and Affordable Drinking Water Fund in the State Treasury to help water systems provide an adequate and affordable supply of safe drinking water in both the near and long terms. Current law requires the state board to annually adopt a fund expenditure plan, as provided, and requires expenditures from the fund to be consistent with the fund expenditure plan. Current law requires the state board to base the fund expenditure plan on data and analysis drawn from a specified drinking water needs assessment. This bill would require the state board to develop a needs analysis of the state's public water systems on or before May 1, 2025, and on or before May 1 of each year thereafter.

SB 1330 (Archuleta D) Urban retail water supplier: water use. Current law requires the Department of Water Resources, in coordination with the State Water Resources Control Board, to conduct necessary studies and investigations, and recommend for adoption by the board appropriate variances for unique uses that can have a material effect on an urban retail water supplier's urban water use objective. Current law requires the department, in recommending variances, to also recommend a threshold of significance for each recommended variance. Current law requires an urban retail water supplier to request and receive approval by the board for inclusion of a variance in calculating their water use objective. Current law requires the board to post specified information on its internet website relating to variances, including a list of all urban retail water suppliers with approved variances. This bill would require the board to adopt variances recommended by the department for unique uses that can have a material effect on an urban retail water supplier's urban water use objective. The bill would provide that variances adopted by the board shall not be subject to a threshold of significance. The bill would require an urban retail water supplier to self-certify the amount of water included in its urban water use objective that is attributable to a

N.R. & W.

BILL NUMBER, TITLE, POSITION	Position	STATUS
variance. The bill would require the board to randomly audit a select number of variances each year to ensure the self-certifications are based on variances adopted by the board. SB 1360 (Alvarado-Gil D) Water rights: appropriation. The State Water Resources Control Board administers a water rights program pursuant to which the board grants permits and licenses to appropriate water. Current law prohibits certain statutory provisions from being construed as depriving any city, city and county, municipal water district, irrigation district, or lighting district of the benefit of any law passed for their benefit in regard to the appropriation or acquisition of water. This bill would make nonsubstantive changes to the latter provision. SB 1373 (Cortese D) Water: public use. Current law declares that all water within the state is the property of the people of the state, but the right to the use of the water may be acquired by appropriation in the manner prescribed by law. This bill would make nonsubstantive changes to that declaration. SB 1390 (Caballero D) Groundwater recharge: floodflows: diversion. Current law declares that all water within the state is the property of the people of the state, but the right to the use of the water may be acquired by appropriation in the manner provided by law. Current law requires the appropriation to be for some useful or beneficial purpose. Current law provides, however, that the diversion of flood flows for groundwater recharge does not require an appropriative water right if certain conditions are met, including that a local or regional agency has adopted a local plan of flood control or has considered flood risks part of its most recently adopted general plan. Current law also requires the person or entity making the diversion to file with the State Water Resources Control Board a final report after the diversions cease, as provided. These requirements apply to diversions commenced before January 1, 2029. This bill would extend the operation of these requirements to diversions commenced before January 1, 2034. The bill would revise, recast, and expand the conditions that are required to be met to include a requirement that a local or		2/29/2024-Referred to Com. on RLS. 2/29/2024-Referred to Com. on RLS. 2/29/2024-Referred to Com. on N.R. & W.

BILL NUMBER, TITLE, POSITION	Position	STATUS
regional agency make a declaration that its proposed diversion is in accordance with one of certain enumerated plans relating to flood control or flood risk, as specified, or a county emergency operations plan. SB 1467 (Rubio D) California Water District Law. The California Water District Law (CWDL) provides for the establishment of water districts, and grants a district the power to acquire, plan, construct, maintain, improve, operate, and keep in repair the necessary works for the production, storage, transmission, and distribution of water for irrigation, domestic, industrial, and municipal purposes. This bill would make a nonsubstantive change to the latter authorization.		2/29/2024-Referred to Com. on RLS.

**SOUTHEAST WATER COALITION
JOINT POWERS AUTHORITY
AGENDA REPORT**

Date: March 21, 2024
To: Southeast Water Coalition Administrative Entity
From: Joanna Moreno, AE Chair, City of Vernon

Subject: MAKING CONSERVATION A CALIFORNIA WAY OF LIFE UPDATE

Recommendation: Receive and file an update on the proposed regulation Making Conservation a California Way of Life.

Discussion:

Making Conservation a California Way of Life is a new regulatory framework proposed by State Water Board staff that establishes individualized efficiency goals for each Urban Retail Water Supplier. These goals are based on the unique characteristics of the supplier's service area and give suppliers the flexibility to implement locally appropriate solutions. Once implemented, these goals are expected to reduce urban water use, helping California adapt to the water supply impacts brought on by climate change.

On March 12, 2024, a notice was given by the State Water Resources Control Board addressing the updated text of the proposed Making Conservation a California Way of Life Regulation. The text is being made available for public comment prior to the Board's future consideration of adoption of the resulting regulation. The updated proposed text can be found under "Regulatory Documents" on the Rulemaking to Make Conservation a California Way of Life page of the State Water Resources Control Board website (https://www.waterboards.ca.gov/conservation/regs/water_efficiency_legislation.html#reg-docs). The second public comment period is open from March 12 until March 27, 2024.

2. Notice of Public Availability of Changes to Proposed Regulation Regarding Making Conservation a California Way of Life.

Fact Sheet

Making Conservation a California Way of Life

What is *Making Conservation a California Way of Life*?

Making Conservation a California Way of Life is a new regulatory framework proposed by State Water Board staff that establishes individualized efficiency goals for each Urban Retail Water Supplier. These goals are based on the unique characteristics of the supplier's service area and give suppliers the flexibility to implement locally appropriate solutions. Once implemented, these goals are expected to reduce urban water use, helping California adapt to the water supply impacts brought on by climate change.

Why is the framework needed?

California has always experienced large swings between dry and wet weather, and due to climate change, these swings are becoming more severe. The recent storms and flooding seen statewide--following years of back-to-back extreme drought--make clear the importance of staying prepared. Hotter and drier periods that are increasing in frequency, reduced snowpack, and drier soils are making our water supplies more vulnerable. As part of the state's all-of-the-above strategy to expand storage, develop new water supplies, and promote more efficient water use, the proposed regulation seeks to cultivate long-term practices that help communities adapt to California's ongoing water challenges and lessen the need for the kinds of emergency water use reduction targets that were important in recent droughts.

Who is impacted by the framework?

In 2018, the California State Legislature passed [Assembly Bill \(AB\) 1668](#) and [Senate Bill \(SB\) 606](#), directing the State Water Board to adopt efficiency standards and also performance measures for commercial, industrial, and institutional water use.

As part of the proposed regulation, *Urban Retail Water Suppliers – not individual households or businesses* – will be held to annual “urban water use objectives.” Urban Retail Water Suppliers are publicly and privately run agencies that deliver water to 95% of Californians. The regulation gives suppliers significant flexibility to meet objectives in a way that works best for them.

To meet annual objectives, suppliers may use a wide variety of tools to encourage customers to use water wisely, indoors and outdoors. Examples include education and outreach, leak detection, rate reform, incentives to plant “climate ready” landscapes, and rebates to replace old and inefficient fixtures and appliances.

CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

STATE WATER RESOURCES CONTROL BOARD

How would objectives be calculated?

The proposed regulation would require suppliers to annually calculate their objective, which is the sum of efficiency budgets for a subset of urban water uses: residential indoor water use, residential outdoor water use, real water loss and commercial, industrial and institutional landscapes with dedicated irrigation meters. Each efficiency budget will be calculated using a statewide efficiency standard and local service area characteristics such as population, climate, and landscape area. Where relevant, suppliers may also include in their objective “variances” for unique uses, or a bonus incentive for potable recycled water use.

Suppliers would need to meet the overall objective, not each individual budget. The one exception is the budget for water loss, which was set by a [separate regulation](#).

What else would the framework do?

The proposed regulation would help realize the water savings outlined in California’s [Water Supply Strategy](#), released in 2022. The framework also is expected to result in suppliers making investments and programmatic changes that encourage individuals, businesses, and local governments to adapt how they use water. Such changes have the potential to advance the State Water Board’s mission of preserving, enhancing, and restoring the quality of water resources and the statutory directive to advance California’s climate change mitigation and adaptation goals. Specifically, the transition to climate-ready landscapes may:

- Bolster nature-based solutions.
 - Example: Increase the prevalence of native and pollinator-friendly plants.
- Create healthier soils and divert organic waste from landfills.
 - Example: Increase the use of compost and mulch.

- Advance equity.
 - Examples: Encourage suppliers to reevaluate rate structures and invest in partnerships that reduce urban heat.

What is the process and timeline for the State Water Board to consider adopting the framework?

Looking forward

A second public comment period will begin on March 12 and run through March 27, 2024. A Board workshop will be held on March 20th.

Looking Back

The regular rulemaking process for the proposed regulation to Make Conservation a California Way of Life began on August 18, 2023, and was followed by a public comment period and public hearing.

The standards for efficient residential indoor water use and water loss have already been set. The Legislature set the residential indoor standard in 2022 with the passage of Senate Bill 1157. The State Water Board adopted the water loss standard in early 2023.

State Water Resources Control Board

NOTICE OF PUBLIC AVAILABILITY OF CHANGES TO PROPOSED REGULATION REGARDING MAKING CONSERVATION A CALIFORNIA WAY OF LIFE

TITLE 23. Waters

DIVISION 3. State Water Resources Control Board and Regional Water Quality Control Boards

CHAPTER 3.5 – Urban Water Use Efficiency and Conservation

ARTICLE 1

SUBJECT: MAKING CONSERVATION A CALIFORNIA WAY OF LIFE

NOTICE IS HEREBY GIVEN that the State Water Resources Control Board (State Water Board or Board) has updated the text of the proposed Making Conservation a California Way of Life Regulation and is making the changed text available for public comment prior to the Board's future consideration of adoption of the resulting regulation.

The following is a link to the rulemaking file for this regulation:

https://www.waterboards.ca.gov/water_issues/programs/conservation_portal/regs/water_efficiency_legislation.html#reg-docs

The updated regulation text is labelled "Updated Text of Proposed Regulation" dated March 12, 2024. The proposed text indicates added proposed regulation text with a single underline and deleted proposed regulation text with a strikethrough.

WRITTEN COMMENT PERIOD AND SUBMITTAL OF COMMENTS

[Gov. Code, § 11346.4(a), § 11346.5(a)(15)]

Any interested person may submit written comments on the changes to the proposed regulation to the Clerk to the State Water Board. Any written comments pertaining to the changes to the proposed regulation, regardless of the method of transmittal, must be received by the Clerk by **March 27, 2024**, which is hereby designated as the close of the written comment period. Comments received after this date will not be considered timely. Written comments may be submitted via any of the following methods:

1. By email to: commentletters@waterboards.ca.gov. The State Water Board requests but does not require that email transmission of comments, particularly those with attachments, contain the regulation package identifier "**Comment Letter—Proposed Making Conservation a California Way of Life Regulation**" in the subject line to facilitate timely identification and review of the comment.

2. By fax transmission to: (916) 341-5620. The State Water Board requests but does not require that faxed comments contain the subject line "Comment Letter—Proposed Making Conservation a California Way of Life Regulation."
3. By mail to: Clerk to the Board, Courtney Tyler, State Water Resources Control Board, P.O. Box 100, Sacramento, CA 95812-0100.
4. Hand-delivered to: Clerk to the Board, Courtney Tyler, State Water Resources Control Board, 1001 I Street, 24th Floor, Sacramento, CA 95814.

For comments not sent by email, the State Water Board requests, but does not require that written comments be sent by mail, and that hand-delivered written comments be submitted in triplicate.

The State Water Board requests, but does not require, that, if reports or articles in excess of 25 pages are submitted in conjunction with the comments, the commenter provide a summary of the report or article and describe the reason for which the report or article is being submitted or its relevance to the proposed regulation.

All comments, including email or fax transmissions, should include the commenter's name and U.S. Postal Service mailing address in order for the State Water Board to provide the commenter with copies of any future notices regarding this matter. Alternatively, you may sign up for the mailing list for this rulemaking.

To be added to the mailing list for this rulemaking and to receive notification of updates for this rulemaking, you may subscribe to the [GovDelivery list](#) for "Water Conservation Regulations" by selecting "General Interests," then selecting "Water Conservation Regulations."

Due to the limitations of the Board's email system, emails larger than 15 megabytes (MB) may be rejected and will not be delivered and received by the State Water Board. Therefore, emails larger than 15 MB should be submitted under separate emails or via another form of delivery.

Please note that under the California Public Records Act (Gov. Code, § 7920.000 et seq.), written and oral comments, attachments, and associated contact information (e.g., address, phone, email, etc.) become part of the public record and can be released to the public upon request.

If you would like to request a copy of the public comment letters received by the Board for this item, send an email to commentletters@waterboards.ca.gov and identify that you are requesting copies of public comments for the proposed Making Conservation a California Way of Life Regulation.

PUBLIC WORKSHOP

The State Water Board will conduct a public workshop on March 20, 2024, starting at 9:00am. At the workshop, any person may present oral or written comments relevant to the changes to the proposed regulation text, in addition to the written comment opportunity described above. Board staff will provide an overview of the changes to the proposed regulation and updates to key provisions, followed by an opportunity for the public to comment. While a quorum of the State Water Board may be present, the Board will not take formal action at the public workshop.

The meeting will be held at the Joe Serna Jr. CalEPA Building, 1001 I Street, Sacramento, CA 95814, with the option to participate remotely.

Notices related to this proposed regulation will be sent to those who subscribe to the "Water Conservation Regulations" GovDelivery topic list. Information about the public hearing will be posted on the webpage:

https://www.waterboards.ca.gov/water_issues/programs/conservation_portal/regs/water_efficiency_legislation.html

STATE WATER BOARD CONTACT PERSONS

[Gov. Code, § 11346.5(a)(14)]

Requests for copies of the updated proposed regulatory text, or other inquiries concerning the proposed action may be directed to:
